# COPPER MAGNET WIRE

## Product Data Sheet

### CW 240 ML Class 240°C Copper

---

NEMA MW 20-C

#### DESCRIPTION

CW 240 ML magnet wire is a single system consisting of an aromatic polyimide enamel for continuous operation at 240°C.

This material results in a system that provides excellent thermal stability, as well as outstanding chemical and solvent resistance.

#### APPLICATIONS

- Aerospace
- Traction Motors
- Synchronous Motors
- Applications requiring a high temperature insulation

#### FEATURES & BENEFITS

- Excellent thermal properties
- 240°C continuous operating temperature
- Superior chemical & moisture resistance
- Resistant to most common solvents & refrigerants

#### AVAILABILITY

CW 240 ML is available in single, heavy and quad builds on rectangular copper conductors.
